

Describing Position-Time Graphs

A dog starts to walk from a position that is 5.0 m to the right of its owner. A graph of the dog's motion is shown.

Position of Dog Against Time

Examine the position-time graph. Describe the motion of the dog in each section. Describe both the speed and the direction.

Section	Speed	Direction
A		
B		
C		
D		

E		
F		
G
